Pre-Planned Maintenance

Metro Rod routinely carries out Pre-Planned Maintenance (PPM) works for a vast array of commercial clients. We are able to discuss any problems that our customers are facing and propose a bespoke maintenance plan to prevent loss of revenue or general inconvenience through a programme of regular works. No matter whether you are a householder or business customer, Metro Rod can offer the same service 24 hours a day 7 days a week.

Your business is unique and often has complex drainage requirements. A PPM agreement will help to prevent drainage emergencies from occurring and we are able to tailor a service that will support all your internal pipes and drains, incorporating such things as;

- ▶ Basin and urinal pipework
- ▶ Cleaner's sinks
- ▶ Toilets
- ▶ Drains from bakeries
- ▶ Food processors
- ▶ Dairies
- ▶ External rainwater drains (to guard against flooding)

Drain Repair

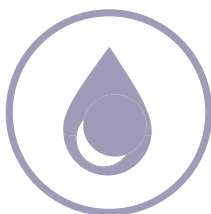

Metro Rod are the industry leaders in drain repair services. We can offer a range of repair technologies to give you the most cost effective and least disruptive drain repair possible. No matter whether you are a householder or business customer, Metro Rod can offer the same service 24 hours a day 7 days a week.

We can help you with...

- ▶ No-Dig or Trenchless Repairs
- ▶ Localised Structural Repairs (LSRs)
- ▶ Patch Liners
- ▶ Ambient Cured Lining
- ▶ Heat Cured Lining
- ▶ Excavation

All techniques currently in use for drain repairs are approved by local Water Authorities and the Water Research Centre (WRC).

Septic Tank Management

Cesspits and Septic Tanks need regular emptying to avoid contamination of the surrounding areas. Waste inside the Septic Tank will build-up and our 3000 gallon waste disposal tankers will be able to empty the tank and dispose of the sewage in the correct manner. No matter whether you are a householder or a business customer, Metro Rod can offer the same service 24 hours a day 7 days a week.

We can help you with...

- ▶ Emptying Cesspits and Septic Tank
- ▶ Pre-Planned Maintenance
- ▶ 24/7 Service
- ▶ UK Wide Coverage
- ▶ Experienced Tanker Engineers

Gutter Clearance

Take the hassle out of clearing your gutters with the help of Metro Vac. Gutter clearing is an essential part of building maintenance and blocked gutters can cause big problems. The innovative Metro Vac system uses long poles that can reach up to 10 metres high to clean gutters from ground level; this removes the need for expensive scaffolding.

An industrial grade wet vacuum cleaner is attached to the poles which will easily lift moss, leaves and debris from the gutters. No matter whether you are a householder or a business customer, Metro Rod can offer the same service 24 hours a day 7 days a week.

Why use Metro Vac?

- ▶ Cost effective – Reduces the requirement for expensive access equipment
- ▶ No Mess – sucks gutters clean using wet and dry vacuum
- ▶ Perfect for hard to reach areas such as over atriums
- ▶ Reduces risk – minimises the need to work at height
- ▶ Precision cleaning – on-board cameras operated by skilled and professional engineers

Robotic Lateral Cutting

We have invested heavily in robotic cutting equipment that can be used in a variety of pipework from 55mm to 800mm.

The robotic cutters can grind, mill and cut in a variety of situations such as;

- ▶ Opening lateral connections on liners
- ▶ Assisting in the removal of failed liners
- ▶ Concrete removal and other settled deposits
- ▶ Protruding pipework removal
- ▶ Root removal
- ▶ Foreign objects such as metal bars through a drain

These cutters can navigate around bends and even climb up vertical pipework. Flexibility and adaptability are key to the successful approach from Metro Rod to provide effective solutions to customers when problems of this nature occur.
